INTERSTATE IntraLATA MESSAGE TELECOMMUNICATIONS SERVICE

REGULATIONS

2.8 RATE DETERMINATION (Cont'd)2.8.3 Class of Service (Cont'd)A. Station-to-Station (Cont'd)

2. (Cont'd)

There are three levels of Operator Assisted Station-to-Station service. They are:

- Non-Automated: Non-automated service is where the person originating the call dials zero or a special access number (e.g., 800/888 number), and the operator dials the number and collects billing information for completion of the call. Non-automated service includes service that is not fully automated or semi-automated. When an operator re-establishes a non-automated call that has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply. (N)
(N)
 - Semi-Automated: Semi-automated service is where the person originating the call dials zero (or 1+ calls from pay telephones) or a special access number (e.g., 800/888 number), then dials the desired telephone number, and the operator collects billing information for completion of the call. When an operator re-establishes a semi-automated call that has been interrupted due to a problem on the network after the called number has been reached, no additional operator service charge shall apply. (N)
(N)
 - Fully Automated: Fully automated service is where the person originating the call dials zero or a special access number (e.g., 800/888 number), then dials the desired telephone number, and then dials the service selection codes as instructed by the automated billing equipment, and the call is completed without the assistance of an operator. This service also includes the situations described in 2.8.3,A.1. preceding. (N)
(N)
3. The Payphone Use Charge applies in Texas, Arkansas, Kansas, Missouri and Oklahoma, to each interstate intraLATA completed non-sent paid call originating from a payphone to compensate payphone service providers.

INTERSTATE IntraLATA MESSAGE TELECOMMUNICATIONS SERVICE

REGULATIONS

2.8 RATE DETERMINATION (Cont'd)2.8.3 Class of Service (Cont'd)B. Person-to-Person (Cont'd)

There are two levels of Person-to-Person service. They are:

- Non-Automated: Non-automated service is where the person originating the call dials zero or a special access number (e.g., 800/888 number), and the operator dials the number and collects necessary information for completion of the call. Non-automated service includes service that is not semi-automated. When an operator re-establishes a non-automated call that has been interrupted due to a problem on the network after the called party has been reached, no additional operator service charge shall apply. (N)
- Semi-Automated: Semi-automated service is where the person originating the call dials zero or a special access number (e.g., 800/888 number), then dials the desired telephone number, and the operator collects necessary information for completion of the call. When an operator re-establishes a semi-automated call that has been interrupted due to a problem on the network after the called party has been reached, no additional operator service charge shall apply. Semi-automated service also includes the situation when an operator places a call for a party who identifies himself as being disabled and unable to dial the call because of his disability. (N)

Person-to-Person service may be billed to a Calling Card, billed to a third number or billed as collect at no additional charge.
